S1-S3 Art and Design
Information Evening, Edinburgh University
Thursday 5 December 2019

This is an exciting new event that will be of interest to S1 – S3 pupils who want to find out more about studying an art or design-based subject at university, and potentially pursuing a career in this area.

Edinburgh University Art and Design Information Evening is aimed at **S1-S3 pupils and their parents/guardians** and will take place on **Thursday 5 December** from **19:00 – 20:30** at Edinburgh College of Art.

The event aims to give pupils and their guests an idea of what studying these subjects at degree-level involves, and the wide range of careers they can lead to. The S1-S3 Art and Design Information Evening aims to:

- Provide pupils and their supporters with a realistic, first-hand insight into studying these subjects at the University of Edinburgh.
- Discuss careers within the visual creative industries.
- Provide accurate and up-to-date information about the current admissions requirements for these subjects. (For the stage pupils are at, this will be very general in terms of subject choices for later in their school career.)
- Provide an opportunity for pupils and parents to ask questions about admissions, studying art / design subjects at university and career pathways in this field.

This is an exciting new event we are running for the first time this year. Pupils may benefit from finding out more about studying creative subjects and future careers in the visual creative industries at this early stage.

Pupils and their parents can get more information and sign up at the following link:
